Further information:

Dr Salmon completed the last two years of his specialist training at the University of California, San Francisco. Here Dr Salmon completed the year-long course for membership of the American College of Mohs Surgery and Cutaneous Oncology and received the Ted Tromovitch Memorial Award for his research in skin cancer. He now runs one of 3 accredited Mohs Fellowships outside the United States.

He has also worked extensively with some of California's best cosmetic dermatologists and has been on the faculty at three international laser conferences and the teaching faculty of the American Academy of Dermatology 1997–2008 meetings. He was co-chair at the World Congress of Dermatology in France 2005 and Argentina in 2007.

He is currently in private practice in Tauranga, Bay of Plenty. He is a Consultant Dermatologic Surgeon at Tauranga Public Hospital.

Dr Salmon's area of special interest are cutaneous oncology, micrographic surgery, prevention of skin cancer and sun damage and cosmetic surgery.

Dr Salmon's practice offers Dermatologic medicine and surgery, specialising in skin cancer and cosmetic surgery services.

Skin cancer

- Counselling on the prevention and treatment of skin cancer, melanoma and sun damage

- Epiluminescent microscopic assessment of pigmented spots and moles
- Digital mole imaging
- Skin cancer checks
- Skin cancer surgery, cryosurgery and Mohs micrographic surgery

DermNet does not provide an on-line consultation service.
If you have any concerns with your skin or its treatment, see a [dermatologist](#) for advice.
